2. Fill out the form. When prompted for the serial number (SN), enter the SN listed on the instrument that operates inside the incubator (with cradles for plates).

The SN can be located on the back of the instrument. Use the list below to ensure you have the correct serial number:

- xCELLigence RTCA SP: Single plate (1 x 96-well plate); SN will start with 26-.
- xCELLigence RTCA MP: Multiple plates (6 x 96-well plates); SN will start with 29-.
- xCELLigence RTCA DP: Dual plate (3 x16-well plates); SN will start with 32-.
- xCELLigence RTCA HT: High-throughput model (384-well plate); SN will start with 34-.
- xCELLigence RTCA S16: Pilot scale model (1 x 16-well plate); SN will start with 58-.
- xCELLigence RTCA TP*: Only supported in parts of Asia.
- xCELLigence RTCA iCELLigence**: (3 x 8-well plates); No longer supported by Agilent.

3. Select "Next" at the bottom of the page.

You will be directed to download the software. Please make sure that the name of the software on the next page is the correct one you intend to download.

4. Click on the software link and follow the wizard.

- Once you download the software from the Agilent website, you will be unable to download a second software unless you delete your cookies or open a window in "private" or "incognito" mode in your browser. Select "New InPrivate window" in Microsoft Edge or "New Incognito window" in Google Chrome.
- Copy and paste the following link into a private window:<u>https://www.agilent.com/en/</u> product/cell-analysis/real-time-cell-analysis/rtca-software/rtca-software-pro-741236
- Return to step 2.

The download will appear as a pop-up under "Downloads" and will be available in the "Downloads" folder.
